# REPORT OF FOREST FIRE WARDENS

Howdy, Folks!

This is your friend Smokey, the fire prevention bear, talking for Elwood Dinsmore, your local forest fire warden.

You know how he is always asking you people to take it easy with fire in the woods? Well, he wants you to know that forest fires decreased last year. He knows it did rain some but it was the help of all you people who are giving their time and money and carefulness to prevent this shameful waste of our woodlands. But please remember this, folks, forest fires still do a lot of damage each year. And we've got to work and work to whittle them down to our size. So when you're around forest areas, crush out your cigarette, hold your match till it's cold, drown your campfire and drown it again. If you have to burn grass or brush or rubbish, ask about the law first, also get your permit from your warden and last, have plenty of help handy. Please remember a permit is required for all open fires whether in an incinerator or on a piece of plowed ground. Your local forest fire warden will help you in your burning problem and he is as close as your telephone. Please call him.

Each year forest fires destroy enough sawtimber to build all the homes in a city of one-half million people.

Each year forest fires eat up enough sawtimber to make ties for 50,000 miles of railroad tracks.

Each year forest fires destroy enough pulp-size trees to provide a 12 months' supply of newsprint for every newspaper in the United States.

REMEMBER ONLY YOU CAN PREVENT FOREST FIRES

Number of fires, none; acres burned, none; permits issued, 35.

Forest Fire Warden  
ELWOOD DINSMORE

District Chief  
ROBERT B. SMITH

## To the Citizens of Bartlett:

The Budget for 1955-56 is approximately the same as it has been for the past two or three years. Again the small increase is due, in the main, to the increase in teachers' salaries. This is the situation throughout the country. The teacher shortage is most critical and will continue so for several years to come. Bartlett has been very fortunate in having an excellent teaching staff, and with this in view the Bartlett School Board has adopted a salary guide that will attract and retain good teachers for our schools.

This year has seen the development and adoption of new report cards which have been enthusiastically accepted. This was a step forward in our effort to provide a better means of reporting pupil progress as well as providing the source for teachers to advise with pupils. It offers a basis for evaluating pupil progress in a conclusive manner in the areas of academic progress and in the most significant aspects of social attitudes and behavior.

We have also adopted a new cumulative record system which now brings together and collates all the information which the school has about each individual pupil. It establishes a basic organizational device for the whole guidance program. It is developed for use throughout the twelve years of school and does the following:

1. It is now possible for teachers to record the pertinent facts and impressions which they consider to be most significant in revealing and shaping the development of pupils.
2. It indicates trends of growth and shows strengths and weaknesses of pupils.
3. It accumulates information on each area of a pupil's experience and development over a period of years.

4. It presents information so clearly that a new principal or teacher can read and understand the record without difficulty.
5. It is used by all staff members as an aid in their daily work with pupils.

I want to take this opportunity to express my appreciation to the Bartlett School Board for their assistance in the administration of our schools and in their constant effort to improve our educational program.

## REPORT OF SCHOOL NURSE

---

I hereby submit my report as school nurse for the year 1953-1954.

Health services offered the children of the Bartlett schools consist of vision testing, hearing testing, patch testing for tuberculosis, chest x-rays, heart examinations for those children participating in sports, and physical inspections.

Weekly visits were made to the school and at this time the teachers were given an opportunity to talk with the nurse concerning the health of their pupils.

Communicable disease control is exercised as far as possible by the exclusion of children showing signs of illness; also, by asking the cooperation of parents in carrying out the morning checkup before allowing children to attend the daily sessions.

The dental program has made splendid progress during the year. The percentage of dental corrections in the past few years has ranged from 75% to 81% and the parents and teachers deserve much credit.

We were unable to hold our customary Child Health Conference and Immunization Clinic this year due to contagious diseases. However, plans are under way to hold the Clinic this coming year.

Respectfully submitted,

JULIA T. COX, R.N.
